

Coronavirus Update

11th November 2020

Continued service, continued support.

In many parts of the world, we're right in the middle of the second wave of the pandemic and we want to re-assure all our customers that we remain very much open for business:

All our manufacturing sites are operating as normal - yarn production, weaving, fabric dyeing and technical knitting; we're continuing to re-build our stock position, our service levels are improving and our global distribution hubs are continuing to fulfil customer orders for fabrics and samples without any disruption to supply.

We're operating safely and in Covid-secure environments. And while many of us are continuing to work remotely from home in line with specific national guidelines, we remain easily contactable - just a click or phone call away – and are looking forward to those times when we can see our customers, suppliers, friends and colleagues face to face once again.

We're very hopeful that's not too far away. In the meantime, we wish you all well – please do stay safe.

Alan Williams
Chief Operating Officer
