
Rivet

Environmental Product Profile

100% REPREVE® Post-consumer Recycled Polyester

Rivet is manufactured from 100% post-consumer recycled polyester. REPREVE is a brand of recycled polyester fibre that is made from recycled materials, including used plastic bottles. Because it offsets the need to use new resources, such as petroleum, and emits fewer greenhouse gases, REPREVE helps provide a reprieve for the planet.

EU Eco Label Certified

The EU Ecolabel helps you identify products and services that have a reduced environmental impact throughout their life cycle, from the extraction of raw material through to production, use and disposal. Recognised throughout Europe, the EU Ecolabel is a voluntary label promoting environmental excellence which can be trusted.

LEED Credit Contributor

Rivet can contribute to the following LEED credits:

LEED v4

- Building product disclosure and optimization – sourcing of raw materials
Option 2 – Leadership extraction practices: recycled content (100% post-consumer recycled polyester)

LEED v3

- MRc2.2 Sustainable purchasing - furniture (over 20% post-consumer recycled content)
- MRc4 Recycled Content (100% post-consumer recycled)
- MRc5 Regional Materials (depending on distance of project location)

Information on contribution to other green building schemes is available

Manufacturing

Manufacturing Location – Huddersfield, United Kingdom

Facility systems – ISO 14001, ISO 9001, OHSAS 18001

0% waste to landfill
