
Oxygen

Environmental Product Profile

90% Virgin Wool, 10% Polyamide

Manufactured from 90% wool, a proven textile fibre with genetically in-built high performance attributes, evolved from nature over thousands of years. It is rapidly renewable and takes the least energy consumption of all the major fibre groups to be converted into usable textile fibre.

LEED Credit Contributor

Oxygen can contribute to the following LEED credits:

LEED v3

- MRc2.2 Sustainable purchasing - furniture (over 50% rapidly renewable material)
- MRc5 Regional Materials (depending on distance of project location)
- MRc6 Rapidly Renewable Materials (90% wool)
